her0

Everyone can be a her0 too.

A venture studio and an AI-powered platform — one identity, two products — turning first-timers into founders, and domain experts into operators.

HERO = HERO + ZERO.

Every founder is a hero. Every journey starts from zero. The zero isn't empty — it's the starting line, the moment before the first commit.

A · THE HERO

Every founder is a hero.

Not the cape-and-fanfare kind. The one who decides, ships, gets up again. We honor the ordinary, repeated act of building — not the myth around it.

B · THE ZERO

Every journey starts from zero.

Blank canvas. Empty repo. No traction, no template, no permission. The zero is honest — and that honesty is what makes the next step possible.

C · THE SLASH

The zero isn't empty — it's a start.

The diagonal slash through the zero is the moment of decision: the line a founder draws to convert nothing into something. It's the her0 signature.

THE ERA

In the age of AI, the cost of starting collapsed. Millions of operators, engineers and domain experts will cross the line from employee to founder. her0 exists to make that crossing legible, repeatable, and survivable.

One brand. Two products. 50/50.

her0 is a single identity that ships in two shapes. The platform meets first-timers where they are. The studio rolls up its sleeves with operators who already know the domain. The visual weight between them is exactly equal — never one above the other.

CONSTRUCTION RULES

- A Wordmark is **always lowercase**. Set in Space Grotesk Bold at -0.04em tracking. Uppercase HERO is prohibited.
- B The terminal "0" sits inside a Signal-mint pill, height = cap-height + 12%.
- C Diagonal slash runs bottom-left → top-right at 45°. Stroke is 14% of glyph width.
- D Pill corner radius equals 15% of pill height. Never circular, never square.
- ! The slash is non-negotiable. It is the brand. Never remove or rotate it.

COLOR

Three primaries. Eight neutrals. Four semantics.

NEVER #000 • NEVER #FFF AS ACCENT

PRIMARY • 50%

Ink

Signal

#00E5A0 • permission to advance

Surgical accent. The "go" color of the brand — used to mark progress, the next step, the slashed zero. Never a background for body content.

PRIMARY • 8%

Flare

#FF6B4A • courage, urgency

Reserved heat. Reserved for studio CTAs, alarms, and moments that require courage. Used moderately, never adjacent to Signal at scale.
